Solution OEM Products Now Available From Pacific Crest

Pacific Crest Corporation is now selling and distributing Solution OEM products, which includes Trimble's BD950 GPS receiver. The addition of these new solutions allows us much more flexibility to better serve your needs.

Trimble's BD950 is an exciting product that provides system integrators with an exceptional level of accuracy, ease of integration, and component life. Following the Eurocard form factor, the receiver is specifically designed to allow easy integration into specialized or custom hardware solutions. Accurate to the centimeter, the BD950 provides outstanding reliability in a wide range of guidance or control applications. The receiver's small size and low power requirements make it especially suitable for portable solutions.

For more information on Solution OEM products or Trimble's BD950, please contact your regional sales representative:
